

Housing Options & Planning Enterprises, Inc. (H.O.P.E.) is a nonprofit, HUD-approved housing counseling agency founded in 2005. Our mission is to promote equal access to housing for all through counseling, education, advocacy, and community revitalization. Our services foster self-sufficiency, sustainable housing, and economic development.

I connected with Erez Asif through MovingWorlds' (Global Experteering Platform) after requesting a coach to help H.O.P.E. raise capital. Like many nonprofits, we experienced funding losses in 2025 that required us to downsize our team. Although our staffing decreased, our workload did not. We needed to strengthen both our funding and our capacity to serve the community.

Erez's coaching style encourages thoughtful reflection. He asks questions that challenge me to examine issues more deeply, develop solutions, and identify practical next steps. Our conversations helped me recognize that raising capital required a broader look at H.O.P.E.'s strategy and organizational structure.

For example one session prompted the development of a new business plan reflecting on how the community needs have changed since I founded the organization. That process helped clarify both the services our community needs today and the organizational changes necessary to deliver them. In subsequent sessions, Erez challenged me to look more closely at staffing capacity, leadership responsibilities, and board restructuring.

Every session with Erez pushes me to think more critically and intentionally about H.O.P.E.'s future. His coaching has helped me connect our immediate need for capital with the planning, staffing, and governance needed to support sustainable growth. I am grateful for his thoughtful guidance (coaching style) and the opportunity MovingWorlds provided to strengthen H.O.P.E.'s ability to fulfill its mission.
